ASTOUNDING LEGACY

MAKING IT BIG EVERY STEP

Established in 1996 with the aim to manufacture best-in-globe plastic piping systems, we at Astral Pipes have revolutionised India's developing real estate fraternity with the unbeatable hallmark quality of innovative piping solutions. Advancing ahead of the technology curve, we replaced primitive and ineffective plumbing techniques by introducing CPVC for the first time in India.

In 2014, we forayed into the adhesives category to manufacture Adhesives, Sealants, and Construction Chemicals. With world-class manufacturing facilities now in this business segment, we bolstered our presence in the category and made rapid inroads. In 2020, we further expanded our product portfolio to enter the Water Tanks category and paved our path for more.

The quest further led us to enter the competitive industries of Bathware and Paints in 2022. These expansions will strengthen our position as a dominant player in the building materials industry, while also complementing our already robust portfolio and enabling us to offer a broader range of solutions in construction and home improvement.
